

SKAARHOJ RC-SK5 Pro License

The Pro License extends your RC-SK5 with universal camera compatibility across brands like Sony and Panasonic, personalized preset labels for easier recall, and live tally indication from top switchers. It enables direct camera feed routing to screens, offers advanced customization through Reactor, supports unlimited camera additions, and integrates seamlessly with the SKAARHOJ ecosystem, transforming your RC-SK5 into a central control hub with the comprehensive capabilities of the Blue Pill platform.

Benefits

- Use RC-SK5 like any other SKAARHOJ controller with all feature set
- Use RC-SK5 with non-Canon cameras
- Utilise SKAARHOJ unique routing trigger when camera is selected (works with multiple switching and routing systems)
- Forward tally from your switcher to cameras without additional cabling

Features

- Enables full SKAARHOJ Reactor feature set for RC-SK5 controller
- Unlocks multiple camera connection
- Unlocks universal camera, switcher and other devices support
- Unlocks multiple panels control
- Unlocks custom preset labelling
- Unlocks advanced customization
