

# Riedel Smartpanel on Raw Panel License

## *SKAARHOJ Riedel Smartpanel on Raw Panel License*

The SKAARHOJ Smartpanel application, xpanel-riedelsmartpanel, allows Riedel Smartpanels to be integrated with Reactor™ and any Raw Panel™ compliant system. By activating the Control Panel Application (CPA) mode on the Smartpanel, users can transform their intercom panels into powerful control surfaces. The application enables complete customization and integration with third-party Raw Panel applications. This paid license unlocks the ability to connect with SKAARHOJ Reactor and control routers, switchers, cameras, and more, using Riedel Smartpanels as part of your broadcast or automation setup.

## Benefits

- Transform existing Riedel intercom panels into device control units
- Control routers, switchers, and cameras with ease
- Full customization and integration flexibility for various workflows
- Enable Raw Panel on Smartpanel for seamless third-party application support
- Use Reactor for efficient configuration of control interfaces

## Features

- Integrate Riedel Smartpanels with Reactor and Raw Panel applications
- Supports Smartpanel models: RSP-1216HL and RSP-1232HL
- Control any SKAARHOJ device core or external equipment (routers, switchers, etc.)
- Customizable configurations for panel layouts, buttons, and encoders
- Use the Control Panel Application (CPA) mode for transforming the Smartpanel into a control surface
- Network communication with Raw Panel protocol for easy integration
- 10-minute free trial period, with full functionality available through a paid license
- Unlimited Raw Panel clients with a paid license, covering multiple Smartpanels
