

X-keys on Raw Panel License

SKAARHOJ X-keys on Raw Panel License

The X-keys on Raw Panel application allows one or more X-keys devices to be connected to SKAARHOJ products, including the Blue Pill, using USB-A. Upon purchasing a license, X-keys devices are converted into Raw Panel-compliant devices, enabling network access and integration with Reactor or any third-party Raw Panel-compliant applications. This solution allows professional-grade control setups, expanding the flexibility of your existing SKAARHOJ panels and X-keys HID devices.

Benefits

- Enable full Raw Panel support for X-keys devices through SKAARHOJ hardware
- Network-enable X-keys devices and integrate them seamlessly with SKAARHOJ control panels
- Supports a variety of X-keys devices including keyboards, joysticks, and pedals
- Easy configuration with Reactor for advanced functionality
- Operate multiple X-keys devices through a single SKAARHOJ Blue Pill

Features

- Full Raw Panel compliance for X-keys devices
- Supports USB-A connectivity for X-keys devices
- Network access for seamless integration into SKAARHOJ systems
- Supports a wide range of X-keys devices, from keyboards to specialty devices like joysticks and foot pedals
- Integration with Reactor for customizable control workflows
- Ability to configure multiple X-keys devices through a single SKAARHOJ Blue Pill using powered USB hubs
- 10-minute free trial period, with full functionality available through a paid license
- Each license covers multiple X-keys devices, with flexible port and serial number management
