

# Wood Frame for 2 M/E configuration Built To Order

## *SKAARHOJ Wood Frame for 2 M/E configuration*

Crafted from professional-grade mahogany wood, the Wood Frame for 2 M/E configurations is designed to accommodate SKAARHOJ's mega panels, including the T-Block controllers and Master Key 48, among various accessories. This frame not only serves as a structural support but also significantly enhances the visual presentation of your control setup. Tailored for environments where both aesthetics and function are critical, such as high-end broadcast studios or executive boardrooms, the frame's luxurious finish and robust construction make it a standout addition, ensuring your setup is both visually impressive and securely supported.

### Benefits

- Made from high-quality mahogany wood for a luxurious finish
- Supports 2 M/E configurations of SKAARHOJ's mega panels
- Elevates the visual presentation of control setups
- Tailored for high-end studios and executive environments
- Ensures robust support and durability for your equipment

### Features
